

Sea Express America Corporation is a proud participant in the U.S. Customs CTPAT supply chain security program. Participants in the CTPAT program strive to help Customs keep the international supply chain secure and by doing so help keep the flow of import shipments into the U.S. moving smoothly.

As a valued customer of our company we'd like to ask you to assist us in this important effort, and one key step you can take is to ask your foreign suppliers to take steps to secure their facilities and to help ensure that all cargo loaded for shipment to the U.S. is kept secure from the introduction of contraband during the loading process.

We have attached the CTPAT Minimum Security Criteria for foreign manufacturers and ask that you share this information with your suppliers. Please let them know that they may contact our CTPAT consultant, TradeLogic International, if they have any questions or concerns regarding supply chain security. TradeLogic can be reached by email at [info@tradelogicintl.com](mailto:info@tradelogicintl.com).

The security of the international supply chain is critical to all of us, and we appreciate your help working with us to keep the supply chain secure. Please feel free to contact us if you have any questions or if we can assist you.

Best regards,

Myra H. Heavner
